-

Certificate

- *Machine Learning Fundamental course*
- *Web Design course*
- *C/C++ course*

Heng Devit

Sras Chork, Donpen,

Phnom Penh

Dear Hiring Manager,

I am excited to apply for the [Position Name] at [Company Name]. As a dedicated Full Stack Developer, I bring hands-on experience in software development and a passion for building efficient, user-friendly applications.

I am proficient in Laravel and Java, with a strong grasp of React for front-end development. My expertise includes database management with MySQL, PostgreSQL, and MariaDB, where I have designed and optimized scalable systems. Additionally, I have experience with HTML, CSS3, jQuery, Bootstrap, Git, and Adobe Figma, allowing me to create seamless and visually appealing web applications.

In my role as a Full Stack Developer Intern at MENGLY J Quach Education, I developed and maintained web applications, managed server hosting, and ensured responsive UI/UX. As a Freelancer at Logi-Service, I worked on database design, front-end and back-end development, and system performance optimization for various client projects.

One of my key achievements was developing the AII&AIS Certificate System, where I collaborated with the digital government committee to implement a secure and customizable certificate issuance process. I am eager to bring my technical skills and problem-solving abilities to your team. I would welcome the opportunity to discuss how I can contribute to your organization.

Thank you for your time and consideration. I look forward to the possibility of working with you.
Sincerely,

Heng Devit

Kind regards,
